

Two Styx Wallbox 7.4kWh EV Charger Instructions.

The charger has been configured to work only during off-peak tariff times - 10pm to 7am. The charger is locked outside of these hours. Charging during this time is the cheapest tariff available. Also, during this time it is less likely that larger appliances in the cabins or cottage will be in use as the charger has been set to operate at 32 amps – the fastest rate available.

If you need the charger in an emergency please contact Russell on 0409 582 942 or info@twostyx.com.au.

The Origin rate for off-peak usage is 35 cents for kWh.

You will need the Wallbox app installed on your phone with your credit or debit bank account details saved – it is suggested that you do this **before leaving home**:

1. Log in to the Wallbox app.
2. Tap **Profile**.
3. Tap **Payment info**.
4. Go to **Payments methods**.
5. Fill in your bank card details.
6. Tap **Confirm**.
7. You have updated your payment method.

The charger is located on the right hand side of the big shed. You will see a copy of the QR code that you will need to scan to access the charger:

How to start a charge?

1 Download the **myWallbox App**.

2 Create an account and scan the charger QR code with **Pay Per Charge**.

3 Follow the **instructions in the app**.
